

MUYANG PELLETING & CUBING SOLUTION

2nd Biomass & Pellets Update Asia

CRANE WANG

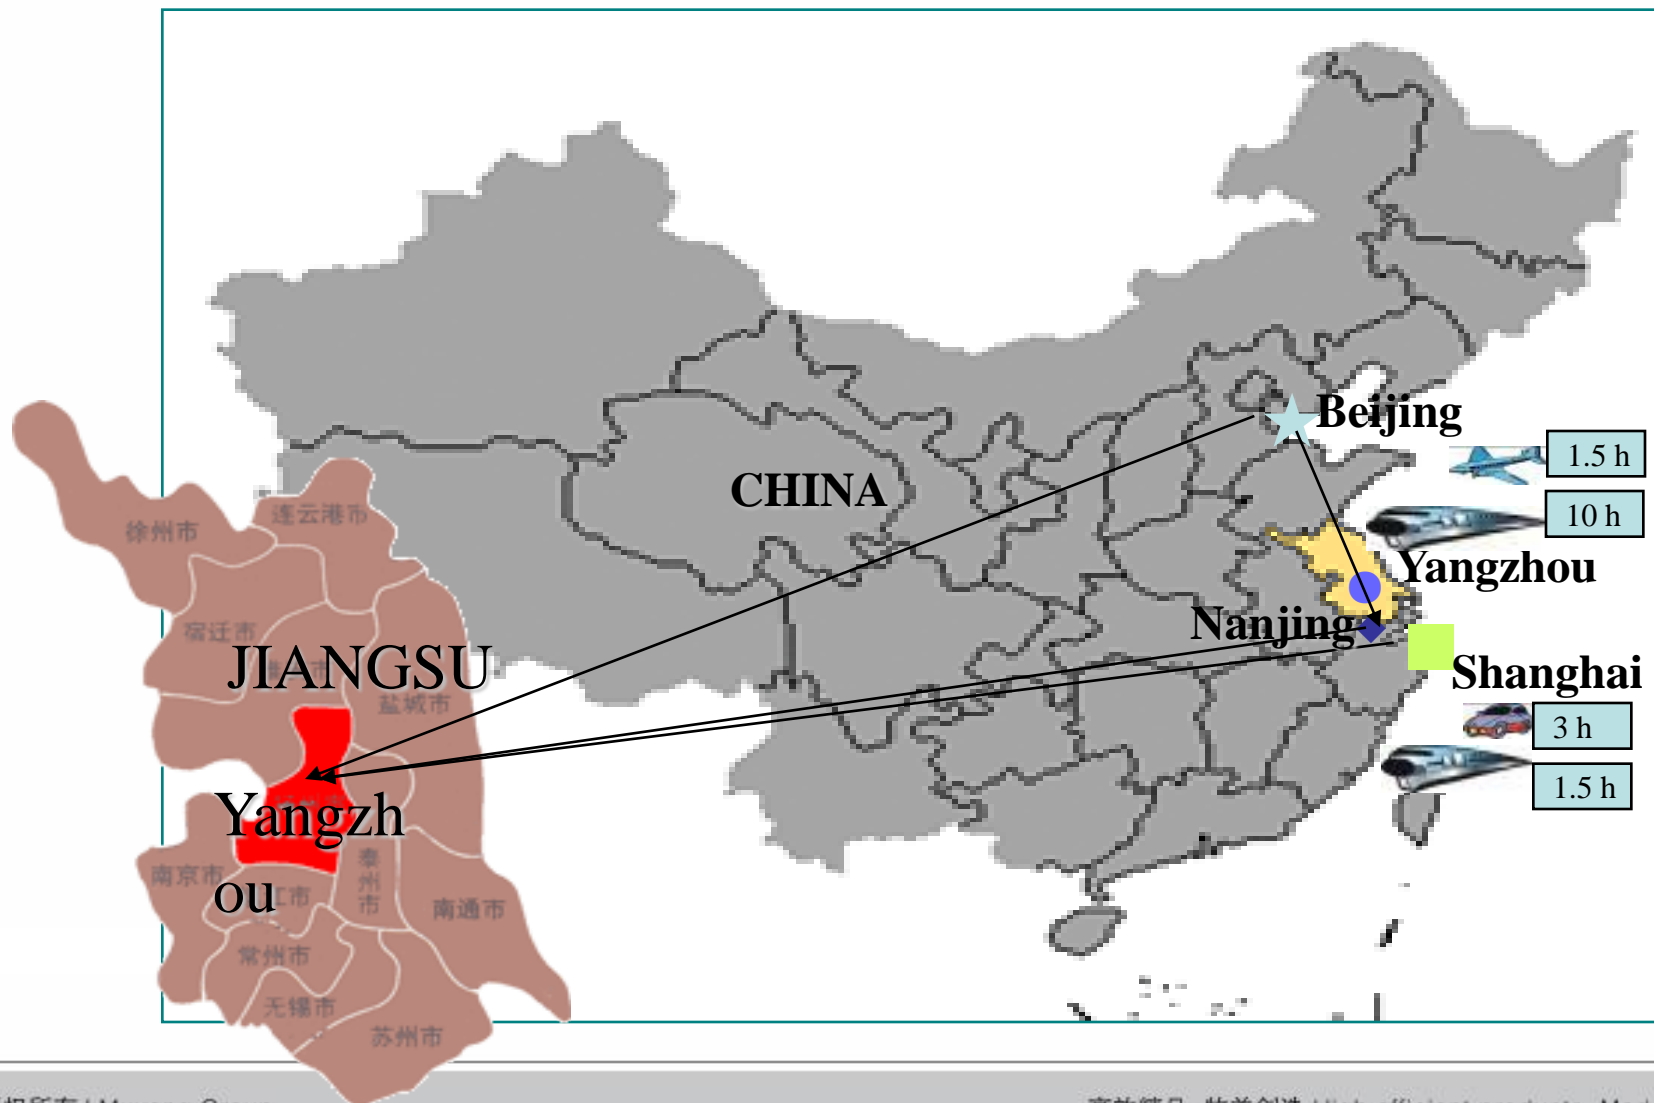

**SALES MANAGER
SOUTHEAST ASIA MARKET**

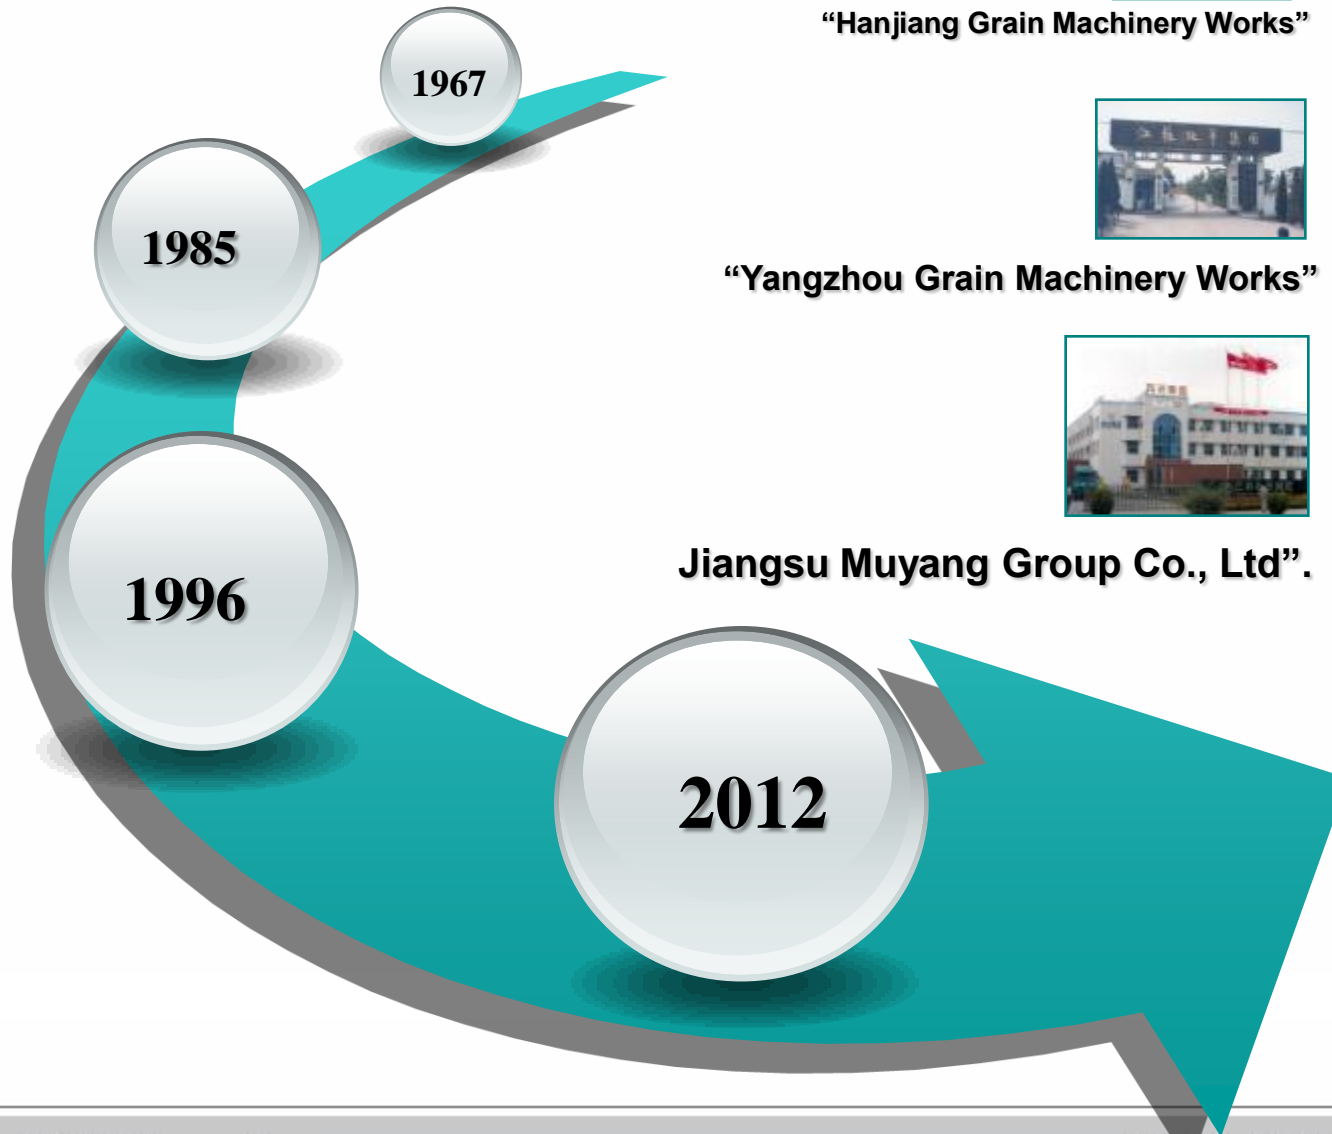

I. PROFILE AND ORGANIZATION

MUYANG LOCATION

YANGZHOU, JIANGSU PROVINCE

History

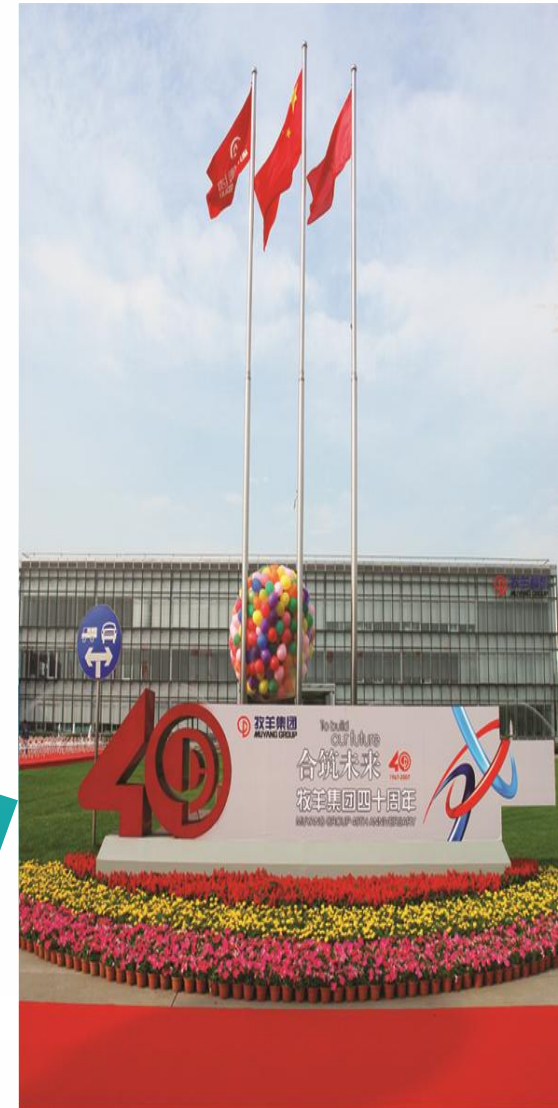

“Hanjiang Grain Machinery Works”

“Yangzhou Grain Machinery Works”

Jiangsu Muyang Group Co., Ltd”.

Three Business Areas

Muyang Main Business

Feed Machinery & Related business

Muyang Key development Business

Muyang Biomass Engineering

Steel Structure & Logistic Division

Muyang Storage Engineering Co., Ltd

Muyang Conveying Equipment Branch Co.

Muyang Potential Business

Muyang Grain Machinery & Engineering Co. ,

Muyang Environment Protection Equipment & Engineering Co., Ltd

Other relevant businesses.

II. KEY TECHNOLOGY

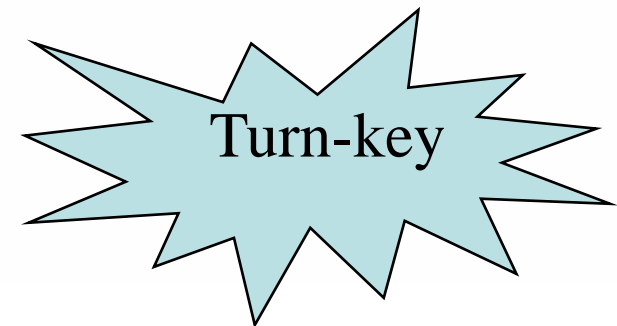

Machine manufacturing

Project erection

Aftersales service

...

Biomass pellet mill

- *Single-motor V-belt driving;
- * Soften transmission;

Typical model:MUZL610M;
Power : 160KW;
Ring die diameter:520mm;
Save the cost of the spare parts,reduce the risk of the ring die;

Biomass cube mill

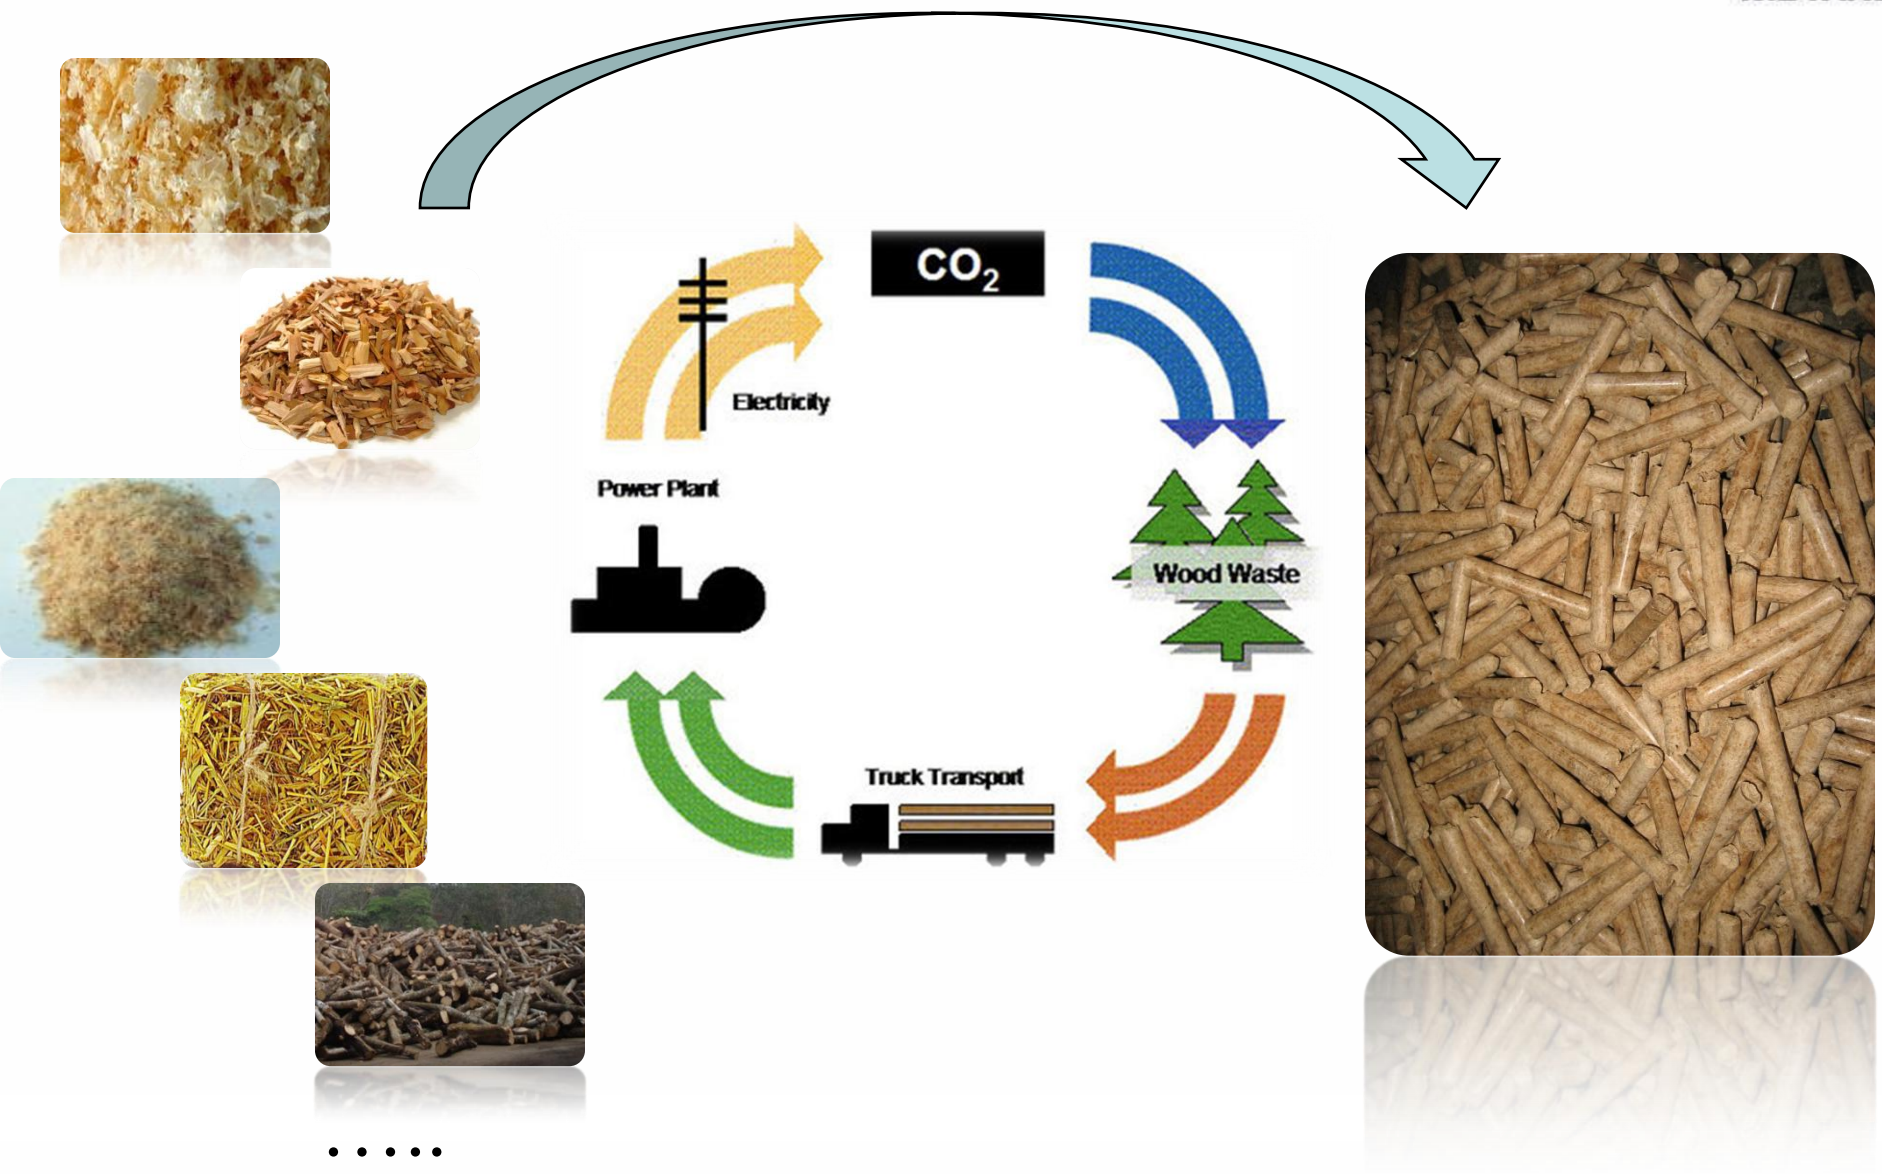

- *Double-motor V-belt driving;
- * Single roll press ;

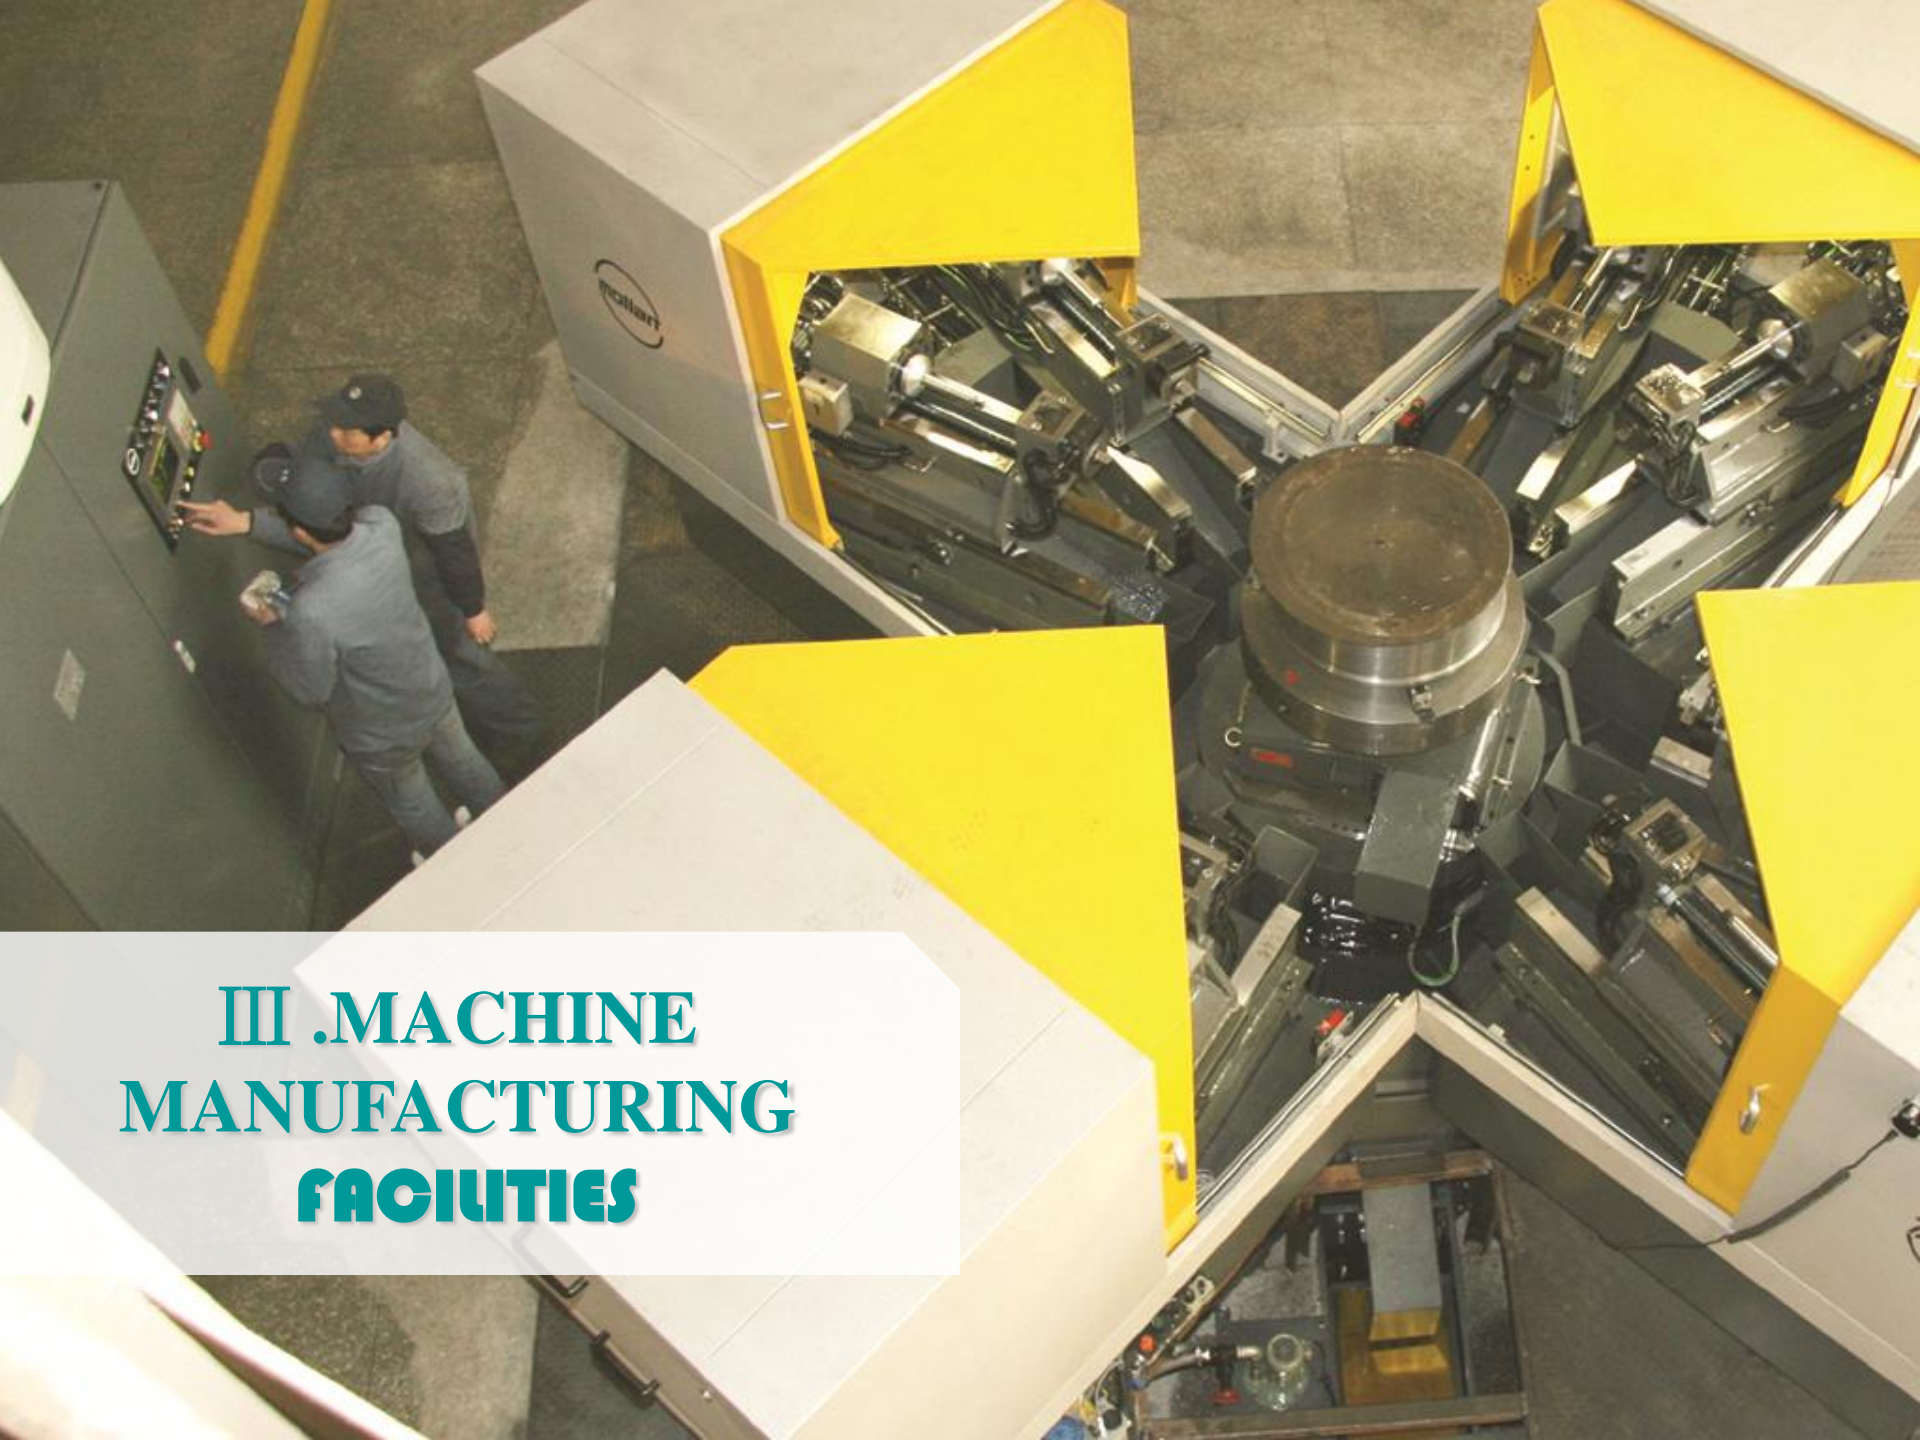

Typical model:MYKC800;
Power : 55x2KW;

Special heavy-duty roll

III .MACHINE MANUFACTURING FACILITIES

--- MANUFACTURING FACILITIES

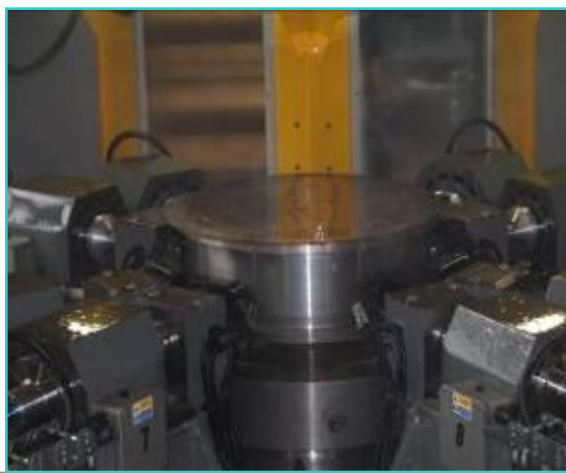

Key Equipments for Die

Gun Drills for Dies

Muyang spare parts

IV. MUYANG SERVICE

Muyang possesses a troop of conscientious and qualified engineers, technicians, construction workers and after-sales servicemen. Their efficient and sincere work for after-sales service in the related industries worldwide is perfectly obvious. Now, Muyang has set up overseas agencies and after-service teams in more than 40 countries and regions. They can settle up your problems or provide you all kinds of very good solutions in shortest time.

As the earliest feed machinery manufacturer in China and having the qualification certificate for project installation awarded by the Chinese government, Muyang Group has designed and constructed over 1000 f Mills of different kinds, in which the number of large scaled feed mills, plants solely invested by foreigners and aquafeed mills rank the first in China. And the biomass project will boom all the world.

Marketing network: 30 representatives in some 50 countries and regions.

Muyang machines and complete plants sold to 71 countries and regions.

MUYANG FUTURE

- Expected turnover 1.1 billion USD by 2012, in which international trade 450 million USD.

- Setting up a R&D center in Europe.

- Setting up sub-companies in South America and Middle East.

- Bring in more professionals from Japan, Australia and Netherlands.
