

August 2011

A Firm Offer for Tight Budgets

As we head into Autumn, we know that many advert budgets are getting tight - the end of 2011 approaches and planning for 2012 is about to start.

Yet your clients, our readers, are also planning on what equipment and services they may consider investing in. To ensure that your products or services are also being considered, you need to be visible. Our **Autumn Offer** for the remaining two issues of Bioenergy International 2011 is designed to bridge that gap;

Book and Pay for two adverts, in no. 6 resp. no. 7, and we will give you 30 % off the second insertion - one size, one invoice, two inserts

But hurry, the offer is subject to availability and only limited space is left available.
